• Materiale: poliammide rinforzata con sfera di vetro. Inserto filettato in ottone nichelato. A richiesta inserto filettato in acciaio inox: per Vs ordine aggiungere alla fine del codice standard la lettera "I". Es. 17000I tappo d.30 con inserto filettato inox

• Material: polyamide reinforced with sphere glass. Threaded insert in nickel-plated brass. Stainless steel insert is also available: in this case to place your order, please add an "I" at the end of the standard code. Ex. 17000I

Caratteristiche: TAPPO QUADRO, INSERTO OTTONE NICHELATO

Features: SQUARE PLUG, NICKEL BRASS INSERT

I dati relativi alla tabella si riferiscono a prove di laboratorio eseguite su provini non sollecitati e sono da considerarsi orientative, in quanto il comportamento del materiale nelle reali condizioni di esercizio dipende da fattori quali: temperatura, concentrazione dell'agente chimico, azione dell'agente chimico a tempo breve e continuo.

Data reported in these pages come from laboratory tests on unstrained samples and should be considered indicative since the material resistance in real working conditions may depend on several factors such as temperature, concentration of the chemical agent and action of the agent in short and continuous time.
